Let not Prejudice Usurp Your Reason.

It is a fact that, in the minds of many persons, a prejudice exists against what are called patent medicines; but why should this prevent you resorting to an article that has such an array of testimony to support it as HOSTETTER'S STOMACH BITTERS ? Phy-

an article that has such an array of testimony to support it as HOSTETTER'S STOMACH BITTERS? Physicians prescribe it; why should you discard it?—
Judges, asually crasidered men of talent, have used and do use it in their families; why should you reject it? Let not your prejadice asure your reason to the everlasting injury of your health. If you are sick, and require a medicine, ity these Bitters.

When the bodily energies are worn out by saxiety and reed a stimulant, this is the best that can be taken. It is tempered and medified by hygienic herbs and roots, which prevent it from fevering the blood; and hence it does not produce a mere temporary excitement, to be followed by injurious restries, but communicates a permanent potency to the entire vital erganization. Some of its herbal constituents are slightly soporifie, so that in cases where sleeple-saness is one of the accompaniments of nervous disease, a dose of it taken towards bedtime will tend to produce quiet and refreshing slumber. For palpitation of heart, tremors, bysteries, fainting fits, general reatlessness and the causeless fears and distressing fancies to which ladies are especially subject, under certain merbid conditions of mini and body peculiar to their sax, the Bitters will be found the most agreeable and sertain of all counter-fribate.

The constitutionally vervous may readily keep their infirmity in constant clack by the daily use of this beniffful vegetable torife; and those who have "shattered their nerves." as the phrase is, either by improdent indulgence or undes physical or intellectual labor, will find in this vitalizing elixir a prompt restorative.

Calesaya or King's Bark was unknown until the middle of the 17th century. Humboldt makes favorable mention of its febrifuge qualities a an antidote to Fever and Ague, Intermittent and Malarious Fevers, in his extensive South American travels.

In 1640 it was used by the Jesuits, who alone at that time possessed the secret of its wonderful tonic properties, and it was sold by them for its own weight in silver.

* In 1658, eighteen years after, Sir John Talbot employed it with great success in France in the treatment of Fever and Ague. Dyspepsia. Nervous Affections, Loss of Appetite, Weakness and Debility. Palpitation of the Heart, Diarrhoea, etc. In 1679 he sold the secret of its origin. to Louis XIV, by whom it was divulged. It is now the all important angradient in Drake's PLANTATION BITTERS, and preserved as it is n nure St Croix Rum, makes a tonic of rare merit, and one that should be upon the side-board of every family. Messrs. P. H. Drake & Co., the sole proprie ors of the celebrated PLANTATION DITTERS, are the largust importers of Calisaya Bark in America. The Bark is mathered and cured under the immediate supervision of an agent sent out to Brazil, expressly for that ourpose, and aside from a few thous and pounds which are sold to the manufacturers of Quinine, is all used in the preparing of these Bitters to which they are indebted for their wonderful success as a tonic

Vegetable Sicilian Hair Renewer

Has stood the test of seven years before the public; and no preparation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely naw existing discovery, combining many of the most powerful and resordive agents in the VEGETABLE KINGDOM. It restores CRAY HAIR TO ITS EIGHBAL YOUTHFUL COLOR. It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon bald heads, except in very aged persons, as it furnishes the mutritive principle by which the hair is noutrished and supported. It makes the hair model, soft, and glossy, and is many powered as a HAIR IR ENSING. It is the cheapest preparation over offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation. It is recommended and used by the First Medical Authority.
